

Call for Papers for the 6th. STORENERGY congress

About the event

On 16th + 17th November 2022, the STORENERGY congress will show ways for the efficient use of resources for the 6th time.

For two days, the Offenburg exhibition center will be dedicated to innovative storage technology, industry models, sector coupling and grid integration as well as current market developments. The main objective of this event is also to link industry and research in the field of energy storage.

Thematic fields

The "Call for Papers" invites submissions for the following thematic fields:

1. Storage technologies

Technologies, concepts, economic and ecological challenges, and current developments in mechanical, chemical, electrochemical, electrical, thermal, and hybrid energy storage.

2. Cross-sector energy storage concepts

Model systems, experience reports & best practice examples of cross-sector concepts in quarters and industry (hydrogen, power-to-gas, power-to-heat, Power-to-Liquid, Power-to-Chemicals or Vehicle-to-Grid etc.).

3. Business, politics, society & sustainability

Business models, future of storage from an energy industry perspective, current development of the storage market, societal implications (e.g. acceptance), sustainability aspects of energy storage and sector coupling.

Abstract and selection of lectures

In order to achieve the highest possible quality of the presentations at the congress, an expert advisory board was formed to provide technical and scientific advice.

This five-member advisory board, which is made up of people from leading research and business companies, is largely responsible for the selection of the presentations and the content of the congress.

As the deadline for submissions has already passed, please contact the project director in advance.

The abstract should include the following information:

- Title (or tentative working title).
- Speaker, organization or company, contact information
- Short description
- Has the presentation already been presented? If yes, at which event.

Lecture details

- A congress lecture has a duration of about 20 minutes, followed by a 5-minute Q&A session.
- Congress language is German or English

Entrance to the event

Of course, all speakers will receive free entrance to the congress for both days of the conference.
